Your Success, Our Dedication

We at Belmont are committed to delivering a transformative educational experience that empowers students to reach their fullest potential.

Providing a nurturing and inclusive environment where students thrive academically and personally.

Inspire and educate well-rounded individuals equipped with the knowledge, skills, and values needed to make a positive impact in the world.

We are dedicated to preparing our students for success as responsible global citizens and future leaders.

Programme Overview

This Level 3 Diploma in IT equips you for a tech career. Master the essentials : computer systems, operating systems, and IT terminology. Become proficient in the MS Office Suite for professional document creation and data management. Understand computer hardware, networking concepts, and basic troubleshooting through modules on hardware and networking. This programme also ignites your coding journey with foundational knowledge in programming concepts and problem solving, followed by a dedicated module on Python programming, a powerful language used in various tech fields. Finally, explore web development principles like HTML and CSS, empowering you to build basic websites. This comprehensive programme prepares you for a range of IT careers, from technical support to web development, and provides a foundation for further specialisation in your area of interest.
